

A thank you letter

To: Habitat for Humanity Sudbury District

When my wife and I read that Habitat for Humanity was going to build a house we were ecstatic. My wife and I were discussing how wonderful it would be for an Organization like Habitat for Humanity to build a home for special needs completely handicap accessible. What a dream come true for our family.

To make a long story short, in 2003 we moved into our "HOME" built by the Lions and Habitat for Humanity Sudbury along with many volunteers and donors. My family now lives in a "Home" that is completely accessible and meets everyone's needs. We couldn't be prouder to own a home where we can build memories as a happy healthy family.

Our lives since being in our "Home" have definitely changed in every sense of the word. My wife and my daughters have all made this house a real "Home". We all cannot thank Habitat for Humanity Sudbury enough for this true blessing that we long prayed for.

Thank You
The St-Jean Family
